

HydraX™ FO Patch Panel

1U 4 slots High Density Patch Panel

HydraX™ High Density FO patch panel provide excellent access to the cable's individual fibres for cross connection. It is convenient equipment to organize and connect the fibre optic links.

HydraX™ high density FO patch panels are commonly used in computer networking, recording studios, radio and television.

Features and Benefits

Suitable for both fibre fusion splicing and pre-terminated MPO (MTP) solution. Provide proper cable routing and protection.

The high density panel can load 4 sets 48core LC cassette. Up to 96core in 1U.

The special metal coating material can prevent the fingerprints left on the panel during the installation.

The mini faceplate can be assembled on the panel easily. One panel can assemble maximum 4 different types fibre adaptor.

Applications and Standards

The panel can manage, house and protect MPO (MTP) cassettes, FO cable, terminations, connectors and patch cords.

IEC 60297-3-2010 Dimensions of mechanical structures of 19" series.

IEC 24764-2010 General cabling system for data centres.

TIA-942-2-2010 Telecommunications Infrastructures Standard.

Characteristics & Properties

Front Panel	SPCC 1.5mm thickness
Number of Slots	4 slots
Panel Body	SPCC 1.5mm thickness
Color of Panel	Black RAL 9005
Faceplate Type	LC duplex, SC simplex, SC duplex, ST, FC

HydraX™ FO Patch Panel

1U 4 slots High Density Patch Panel

TECHNICAL DATA

6 ports SC Duplex

6 ports LC Duplex

6 ports FC

6 ports ST
