

HydraX™ Fibre Optic Stackable Patch Panel

1U/4U 4 slots High Density Sliding Type Patch Panel

HydraX™ High Density Fibre Optic Sliding Stackable patch panel provides excellent access to the cable's individual fibres for cross connection. It is convenient equipment to organize and connect the fibre optic links.

HydraX™ high density fibre optic patch panels are commonly used in computer networking, datacenter, recording studios, radio and television.

Features and Benefits

Suitable for pre-terminated MTP solution. Provide proper cable routing and protection.

The high density panel, 1U can load 96core DLC or 32port MTP Adaptor; 4U can load 384cores DLC or 128port MTP.

High quality stainless steel ball bearing railing make sure noisy less and reliability.

Futuristic morden design.

Applications and Standards

The panel can manage, house and protect MTP cassettes, FO cable, connectors and patch cords.

IEC 60297-3-2010 Dimensions of mechanical structures of 19" series.

IEC 24764-2010 General cabling system for data centres.

TIA-942-2-2010 Telecommunications Infrastructures Standard.
